CHAPTER 20

DALLAS COUNTY, IOWA

20.03 CLEANUP REQUIRED. Whenever a hazardous condition is created by the deposit, injection, dumping, spilling, leaking, releasing or placing of a hazardous waste or substance, so that the hazardous substance or waste or a constituent of the hazardous waste or substance may enter the environment or be emitted into the air or discharged into any waters, including ground waters, the responsible person shall cause the condition to be remedied by a cleanup, as defined in the preceding section, as rapidly as feasible to an acceptable, safe condition. The costs of the cleanup shall be borne by the person having control over the hazardous substance. If the person having control over the hazardous substance does not cause the cleanup to begin in a reasonable time in relation to the hazard and circumstances of the incident, Dallas County may proceed to procure cleanup services and bill the responsible party. If the bill for those services is not paid within (30) days, the County Attorney shall proceed to obtain payment by all legal means. If the cost of the cleanup is beyond the capacity of the County to finance it, the Dallas County Emergency Management Coordinator shall report to the Board of Supervisors and immediately seek State or Federal funds for said cleanup. The existence of more than one responsible person does not relieve any other person from cleanup responsibilities set out by this chapter.

20.04 NOTIFICATIONS.

1. A person manufacturing, storing, handling, transporting or disposing of a hazardous substance shall notify the Dallas County Sheriff's Office of the occurrence of a hazardous condition as soon as possible but not later than (30) minutes after the onset of the hazardous condition or discovery of the hazardous condition. The Dallas County Sheriff shall immediately notify the Dallas County Emergency Management Coordinator.
